Phoenix Status Report as of July 23, 2004

The National Data Warehouse Initial Data Load began in Phoenix with Parker on June 10, 2004.

Issues were encountered when processing Phoenix data related to having multiple facilities on one RPMS system. These problems have been resolved and processing resumed.

The data load schedule for Phoenix has been adjusted. The specific order that data should be transmitted is as follows:

> Parker Hospital
> Hopi Health Care Center
> HU-HU-KAM Memorial Hospital
> San Carlos
> Whiteriver Hospital
> Ft.Duchesne HC
> Reno-Sparks Tribal Health Center
> Ft. Yuma Hospital
> Washoe Tribal Health Center
> Owyhee Tribal Hospital
> Southern Band Health Center
> Fallon
> Walker River Health Center
> Phoenix Indian Medical Center
> Paiute Indian Tribe of Utah (PITU)

We anticipate having all extracts transmitted to the NDW by September 10, 2004. For more specific scheduling information please refer to the Load Schedule document.
